

**WHAT ARE THEY  
SPRAYING?**

**WHAT IS GOING ON WITH THE WEATHER?**

Global weather patterns have become rapidly more extreme and deadly. Are these changes all just "natural" as mainstream media would have us believe? What if there was an environmental threat that you did not even know was happening? What if you found out about this threat and realized it was affecting your health, the health of those you love, and our planet as a whole? Global climate engineering programs have been fully deployed without the knowledge or consent of the public.

**INVESTIGATE.**

**GEOENGINEERINGWATCH.ORG**

Climate modification programs (known as geoengineering) are going on in the skies all over the planet. The stated purpose of these programs are to slow climate change, but this radical form of climate intervention is devastating the planet and severely impacting human health. Though official agencies deny the ongoing climate engineering, lab tests from around the globe prove the lethal heavy metal particles used in the geoengineering programs are raining down on us all and contaminating every breath we take. Get educated on this issue and share this message with others.
