 ALASKA  
 NASA & U.S. Air Force CRRES & TMA Night Clouds Program  
 EXPERIMENTAL WEATHER MODIFICATION  
 Ionosphere Experiments

We will use chemicals, particles, and other schemes to stop direct sunlight from reaching the earth!

Let the public money flow and more experiments begin!

We don't need the public to know about our plans or have any oversight of our activities,

**WE KNOW BEST!**

C.A.R.E. Experiment

LAUNCH 09-19-09

PAYLOAD: Aluminum Oxide

U.S. NAVY

NASA

Dust Cloud Created Over the Atlantic Seaboard 9/2009

"...The C.A.R.E. experiment could also pave the way for future launches that would use the uppermost part of Earth's atmosphere as a large physics laboratory..." stated CARE's principal investigator, Paul Bernhardt of the Naval Research Laboratory in Washington, DC. New Scientist September 21, 2009

Toxic Rocket Fuel Perchlorate

- METHODS:**
- Sulfur Particulates
  - JETS RELEASING CARBON BLACK PARTICLES
  - SPACE MIRRORS
  - SF6 Tracers
  - ALUMINUM BALLOONS
  - Chaff
  - LIQUID PROPANE
  - ocean salt water
  - OCEAN FERTILIZATION
  - SPACE MIRRORS
  - microwave-beaming satellites
  - AgI aerosol & indium sesquioxide

74 W	28 Ni
